NURSERY, SEMI-NURSERY AND COLLECTED STOCK

TO THE TRADE

ANTHONY LAKE NURSERY, located 3,500 feet up in the Blue Ridge Mountains, near Pineola, Avery County, North Carolina, offers an unrivaled source for native broad leaf evergreen shrubs. Experienced management, ample capital and up-to-date facilities are the factors which have contributed to the building of this nursery, which ranks as one of the foremost of its kind.

Anthony Lake Nursery products include Rhododendrons, Azaleas, and Hemlocks and other similar plants native to the Blue Ridge and Great Smoky Mountains. The quality is what could be expected from a well-financed, conscientious and experienced organization—interested only in producing the very best.

This price list covers Nursery Grown Stock, Semi-Nursery Stock and Collected Stock. We feature our Nursery Grown Stock as the finest we have to offer. The Semi-Nursery and Collected Stocks are all carefully selected and can be relied upon as first class in every particular.

Our extensive facilities puts us in a position of having ample stocks available so that prompt shipment is assured. It is suggested, however, that orders be placed as early as possible.

This price list supersedes all the previous price lists we have published.

Special List of
NURSERY GROWN PLANTS

We take particular pride in the quality of our Nursery Grown Stocks. The success obtained by Rhododendron growers in late years from nursery stocks indicates that the extra cost entailed brings very definite results and better and more luxuriant growth.

In planting Nursery Grown Stock we run very little risk of unsuccessful growth, since the root growth is well established in the nursery. The result is that the plants are rich in color and healthy from the start. This is a contrast to the usual action of collected stock, which goes through a yellow stage the first year, and often the purchaser becomes discouraged before the plants have time to return to their natural color.

We recommend wherever possible that our Nursery stock be used.

We have a great variety of sizes and our facilities are large enough to give very prompt service on large orders.

NURSERY, SEMI-NURSERY AND COLLECTED

A great many items of regular Nursery Stocks, including seedlings, are included in these lists.

The Semi-Nursery Plants are taken from the collecting fields and replanted in our nursery, thus they become established and make fiber roots so they can be transplanted and will live. We have shipped many thousands of these plants all over the country and have a long list of satisfied users.

We use the utmost care in selecting and preparing our Collected Stocks. The purchasers of Collected Stocks should understand that these shrubs will develop more slowly and with greater hazard of living. However, he can be assured that Anthony Lake Collected Stock is the very finest available.

RHODODENDRON MAXIMUM

Blooms late June and early July. Has a beautiful white bloom tinged with pink. Its leaves are dark green about two and one-half inches wide and five to ten inches long. Most commonly used for massive planting and quick results.

Beautiful **Christmas Packages**

For years we have been specializing in attractive packages of evergreens for the winter holiday trade. The selection which we furnish provides a lovely green bouquet which will keep fresh for many weeks.

We furnish an assortment of Leucothoe Sprays, Mistletoe, Galax, Ground Pine, Silver Pine, Balsam Cuttings, Holly and Ferns.

We will be ready to start shipments in quantity October 1st. We suggest that the order be placed four or five days in advance so that we can assure package arriving at destination on exact date desired.

We will be glad to place a suitable card in the box bearing your name, if you want to remember your friends and have the packages shipped direct to them. These evergreen packages make wonderful holiday gifts.

These are shipped in two sizes, one at \$2.00 and one at \$3.00. The \$2.00 size is 5"x7"x20" and contains 4¾ pounds of the assorted evergreens. The \$3.00 size is 6"x10"x20" and contains 7¼ pounds of the same assortment.

We pay postage up to and including the fourth postal zone, or about 600 miles from Pineola. For longer distances, actual postage is charged.
